

System		Cybersecurity and user rights	
Type of deployment	Single server	Kerberos authentication	✓
Licensing	Perpetual	Communication encryption (Recording, Management and Mobile Server)	✓
Number of cameras per recording server	48	Restrict user access by client type	✓
Number of recording servers per system	1	Dual authorization	✓
Flexible rule engine	✓	Media database encryption and digital signing	-
<b>Performance and Scalability</b>		Tiered management rights	-
Centralized management	✓	Two-step verification	-
Microsoft Active Directory	✓	<b>Monitoring and investigation</b>	
Pre-recording buffer in RAM	✓	Map function	✓
Hardware accelerated video decoding (Quick Sync)	✓	Centralized Search	✓
Edge Storage	-	Privacy masking	✓
Scalable Video Quality Recording™	-	Push notification	✓
Hardware accelerated video decoding (NVIDIA)	-	Alarm Manager	✓
System Monitor	-	Customer Dashboard	✓
<b>Integration</b>		Manual bookmarking	-
Third-party application integration	✓	Rule based bookmarking	-
XProtect Screen Recorder	✓	Smart Map	-
Metadata	✓	Evidence Lock	-
XProtect Add ons	✓	<b>Failover and Redundancy</b>	
XProtect Smart Wall	-	Failover event server	✓
<b>Interoperability</b>		Management failover server	✓
Milestone Interconnect™	Remote site	Hot- & cold-failover recording server	-
Milestone Federated Architecture™	-
